EXECUTIVE ORDER 9066

IMPACT ON PERSONS OF JAPANESE ANCESTRY

Although not mentioned by name, Executive Order 9066 paved the way for the mass incarceration of all persons of Japanese ancestry residing on the West Coast. On March 2, 1942, General John L. DeWitt of the Western Defense Command designated the coastal parts of California, Oregon and Washington an exclusion area, which led to the internment of Issei (first-generation immigrants ineligible for U.S. citizenship), Nisei (second-generation American citizens by birth), and Kibei (American-born U.S. citizens raised or educated in Japan) alike.

Indicating the racialized nature of internment, German and Italian Americans were not subject to mass incarceration.

NEXT: "EVACUATION" FROM THE WEST COAST

Display Font: Futura is an early geometric sans-serif typeface designed by Paul Renner and released by Bauer Type Foundry in 1927. It is one of the most widely used typeface families of the twentieth century. The typeface family was expanded through 1955, and was re-issued and imitated by a

TYPOGRAPHY

number of foundries. It remains in wide usage and has inspired a number of fonts, notably Avenir (French for "future") released by Adrian Frutiger in 1988.

Accent Fonts: Karnak (1931) is a slab-serif typeface designed by R. Hunter Middleton. Slab serifs were often called "Egyptians" as an exoticism, with this font taking its name from the Karnak Temple Complex in Egypt. The font has received renewed attention since its digitization in 2009, with the *New York Times* commissioning a version from Matthew Carter.

Significantly, Futura (or more likely one of its many clones) was used to set the iconic evacuation order issued by General John L. DeWitt ordering the forced evacuation of Japanese Americans from the West Coast in the wake of President Franklin D. Roosevelt's issuance of Executive Order 9066. As images have circulated in subsequent decades, the evacuation posters remain one of the most identifiable symbols of WWII incarceration. Our use of the font is meant to highlight the reparative dimensions of public-facing humanities projects.

Coronet is another Middleton font, released in 1937. With slanted matrices, Coronet's letterforms are able to slope atop one another, lending it a handwritten feel. Although it has not dated particularly well and is little-known today, it saw widespread use in the mid-century. It will be used to set the text for water features on our map, further enhancing its period aesthetics.

WESTERN DEFENSE COMMAND AND FOURTH ARMY
WARTIME CIVIL CONTROL ADMINISTRATION

Presidio of San Francisco, California
April 1, 1942

INSTRUCTIONS TO ALL PERSONS OF JAPANESE ANCESTRY

Living in the Following Area:

All of San Diego County, California, south of a line extending in an easterly direction from the mouth of the San Diego River (mouth of El Cajon) along the north side of the San Diego River, Lake Hodges, and the San Diego River to the latter over the San Diego River at or near San Marcos, thence easterly along the north side of California State Highway No. 78 through Ramona and Indio to the eastern boundary line of San Diego County.

All Japanese persons, both alien and naturalized, will be evacuated from the above designated area by 1200 o'clock on Wednesday, April 2, 1942.

No Japanese person will be permitted to enter or leave the above designated area after 8:00 a. m., Thursday, April 2, 1942, without obtaining special permission from the Person Marshal at the Civil Control Station located at:

1919 India Street
San Diego, California

The Civil Control Station is organized to assist the Japanese population affected by this evacuation in the following ways:

1. Give advice and assistance on the evacuation.
2. Provide services with respect to the management, housing, sale, storage or other disposition of most kinds of property including real estate, business and professional equipment, buildings, household goods, loans, automobiles, livestock, etc.
3. Provide temporary residence elsewhere for all Japanese to family groups.
4. Transport persons and a limited amount of clothing and equipment to their new residences as specified below.

The Following Instructions Must Be Observed:

1. A representative member of each family, preferably the head of the family, or the person in closest name next of kin, must appear in person at the Civil Control Station at the following times: Thursday, April 2, 1942, between 8:00 a. m. and 1:00 p. m.; Friday, April 3, 1942, between 8:00 a. m. and 1:00 p. m.; Friday, April 3, 1942.

2. Evacuees must carry with them on departure for the Receiving Center, the following property:

- (a) Building and family (see manual) for each member of the family.
- (b) Toilet articles for each member of the family.
- (c) Extra clothing for each member of the family.
- (d) Sufficient food, fuel, money, glasses, books and other necessities for each member of the family.
- (e) Personal property for each member of the family.

3. All items carried with the evacuee must be clearly marked with the name of the owner and must be accompanied by a receipt from the Civil Control Station.

The size and number of packages is limited to that which can be carried by the individual or family group.

No household items as described by paragraph 1, Public Proclamation No. 2, Headquarters, Western Defense Command and Fourth Army, dated March 24, 1942, will be carried.

4. The United States Government hereby grants to each evacuee for the group, at the rate of one-half of the value of the same, reimbursement for the cost of transportation, including the cost of the evacuee's travel to the receiving center, and the cost of the evacuee's travel to the receiving center.

5. Each family and individual group, when it is received at the Receiving Center, will be assigned a representative to assist in the evacuation of the group.

Go to the Civil Control Station at 1919 India Street, San Diego, California, between 8:00 a. m. and 1:00 p. m., Thursday, April 2, 1942, or between 8:00 a. m. and 1:00 p. m., Friday, April 3, 1942, to receive further instructions.

Anchor Font: Yale (2004). Commissioned

by Yale University and designed by 2010 MacArthur Fellow Matthew Carter, the Yale typeface is an old-style typeface influenced by Bembo (1929). Other aspects of the font are influenced by ITC Galliard (1978), also designed by Carter, which is notable for its robust stroke and sharp details. As an old-style serif, Yale approximates the look and feel of type in circulation in the first half of the twentieth century. Importantly for a digital project, the Yale family includes typefaces optimized for display on the web.

Franklin Gothic (1902) is a sans-serif typefaces developed by the American Type Founders. Despite being eclipsed in the 1930s by Futura, it has returned to common usage. Widely found in advertising and newsprint, with the *New York Times* again commissioning Matthew Carter to create their own custom version. It will be used to set subheaders on our site. ■
